PROFESSIONAL SUMMARY

PythonBackend Developer with experience in Django, Django REST Framework, REST API development, and database-driven backend applications. Completed an onsite Backend Development Internship at Enigmatix and developed backend projects including an E-commerce API, Blog API, and To-Do API.

WORK EXPERIENCE

Intern Backend Developer Jan–2025 – March 2026 | Bahawalpur, Pakistan

Enigmatix | Onsite

• Worked on backend development using Python, Django, Django REST Framework (DRF), and MySQL to develop and maintain RESTful APIs.

• Developed backend functionalities using Django models, serializers, generic views, URL routing, and Django ORM for different application modules.

• Implemented user authentication, performed database operations, tested APIs using Postman, and resolved backend issues through debugging.

• Used Git and GitHub for version control while collaborating with the development team and following standard backend development practices.

EDUCATION

BS SOFTWARE ENGINEERING

The Islamia University Of Bahawalpur

Courses: OOP in Python, Algorithms, Operating System, Data Structure, , DBMS, Communication Skills, Web Development & Design, Theory Of Automata. Human Computer Interaction.

Currently in 6th Semester **CGPA: 3.04/4:00 (5th Semester)**

Intermediate (FSC PRE-MEDICAL)

Toppers College LODHRAN

TECHNICAL SKILLS

Programming Language
Python, HTML5, CSS3

API Development
CRUD Operations, Serializer Validation, Authentication & Authorization, API Testing (Postman)

Tools
Git, GitHub,postman, VS Code,Docker

Backend
Django, Django REST Framework (DRF), RESTful APIs, JWT Authentication, Django ORM, Class-Based Views (CBVs), Generic API Views

Databases
MySQL

Core Concepts
Object-Oriented Programming (OOP), Database Design, Model Relationships, Debugging, Problem Solving

KEY PROJECTS

E-Commerce Backend API

Production-ready E-Commerce Backend REST API

- **Features:** JWT Authentication, User Registration & Login, Product Management, Shopping Cart Management, Order Management, RESTful APIs, CRUD Operations, Serializer Validation, Authentication & Permissions, Generic API Views, Database Relationships, Modular Project Structure.
- **Tech Stack:** Python, Django, Django REST Framework (DRF), SQLite, JWT Authentication, Git, GitHub, Postman

Blog Management Application

Backend-driven blog management application
with user authentication

- **Features:** User Authentication, Blog Post Management, CRUD Operations, Image Upload, Author-based Authorization, Django Forms, Database Operations, Template Rendering, URL Routing.
- **Tech Stack:** : Python, Django, SQLite, HTML5, CSS3, Bootstrap, Git, GitHub

Todo Management Application

Task management application built using Django Class-Based Views

- **Features:** Task Creation, Task Management, CRUD Operations, Mark Tasks as Completed, Class-Based Views (CBVs), Template Rendering, Database Operations, Clean Project Structure.
- **Tech Stack:** Python, Django, SQLite, HTML5, CSS3, Bootstrap, Git, GitHub

CERTIFICATION

Backend Development
Internship
Enigmatix Pvt. Ltd.
Jan 2025 – Mar 2026
Credential ID: Ref/00443

- Completed hands-on backend development internship using Python, Django, Django REST Framework, and MySQL.
- Developed REST APIs, worked with models, serializers, views, authentication, and database operations.
- Collaborated on real-world backend development tasks and API testing.

Soft Skills

Professional Attributes

- Leadership
- Communication
- Problem Solving
- Critical Thinking
- Team Collaboration
